

April 2006

IN APRIL 2004, WE USED DIEHARD™ TRANSPLANT AT VENETIAN GOLF AND RIVER CLUB IN SARASOTA COUNTY FLORIDA. ONE HOUSE ALONG A STREET OF IDENTICAL LANDSCAPES WAS TREATED WITH DIEHARD™ TRANSPLANT.

HERE ARE PICTURES OF TREES ALONG THE STREET **TWO YEARS AFTER PLANTING**. LOOK AT THE SKY BEHIND THE TREES AND SEE THE DIFFERENCE ON THE TREE THAT TRANSITIONED WITH THE TREATMENT. TWO YEARS AFTER TRANSPLANTING!!

DIEHARD™ TRANSPLANT IS GENERALLY VIEWED AS A “TRANSPLANT AID” TO PREVENT PLANT LOSSES. THESE PICTURES SHOW A LOT MORE THAN PLANT SURVIVAL – THEY SHOW THE TRANSPLANT SUCCESS **AT A LEVEL THAT IS UNPARALLELED**.
